NAAEE 2025 Conference: The Power of Connection: Networks That Drive Impact

SASEANEE and NAAEE jointly organised the session on the “Power of Networks” to explore:

- How networks amplify impact through collaboration and shared learning
- Stories from South Asia and Southeast Asia through SASEANEE
- The global reach of GEEP and its synergy with regional networks
- How you can participate and contribute to these collaborative platforms

SASEANEE

South and Southeast Asia Network for Environmental Education

SASEANEE UPDATES

Ms. Judy Braus, Executive Director, NAAEE emphasized that networks help people learn, innovate, collaborate, and see the bigger picture. She highlighted the importance of trust, shared purpose, open communication, and strong connections for a healthy network. They outlined a practical network health framework with key indicators like leadership, common language, feedbacks, communication, resources, strong social ties, and different leadership roles within networks.

The session showcased SASEANEE as a case example of a regional network, with its 19-country reach, collaborative activities, and partnerships. Mr. Kartikeya Sarabhai, Founder and Director of CEE, emphasized the region's shared ecological and cultural histories, the need to address common environmental challenges, the value of global connections, and the importance of building a sustainable, widely owned "banyan tree-like" network.

The GEEP team added a global perspective, describing GEEP as a "network of networks" supporting environmental education worldwide. Overall, the session emphasized the importance of networks in strengthening collective action and advancing environmental education at regional and global scales.

"Power of Connection"

SASEANEE for Planetary Well being

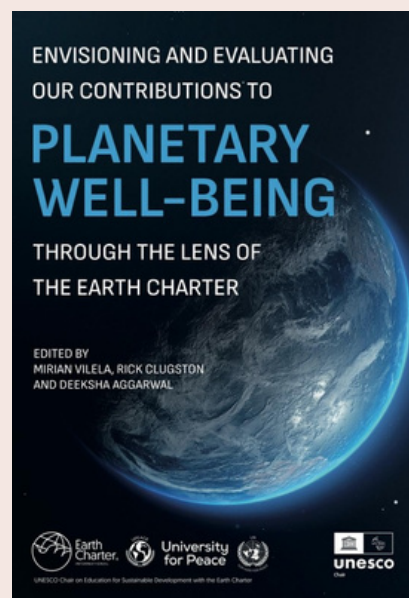

The SASEANEE team, Centre for Environment Education (CEE) co-hosted the launch of “Envisioning and Evaluating Our Contributions to Planetary Well-Being through the Lens of the Earth Charter” with Earth Charter International on 27 November 2025 at the India International Centre, New Delhi.

The event brought together diverse perspectives from the legal community, sustainability leaders, and scholars. The panel comprising Hon’ble Justice Jasmeet Singh (Delhi High Court), Mr. Kartikeya Sarabhai (CEE), Dr. Livleen Kahlon (TERI), and Dr. Vasanti Rao (CMS, IUCN CEC)—engaged in a meaningful discussion on ethical governance, intergenerational responsibility, and the importance of inspiring action through value-based engagement.

The book, edited by Mirian Vilela, Rick Clugston, and Deeksha Aggarwal, was highlighted as a significant contribution to the global discourse on planetary well-being, bringing together ethical, ecological, and legal perspectives to guide transformative action.
